TUESDAY, JANUARY 8, 1878.

CHICAGO MARKET SUMMARY.

The Chicago produce markets were less active

yesterday, and breadstuffs tended downward.

Meat pork closed a shade easier, at \$1.75@ \$1.30 for February and \$1.45@ \$1.45 for March.

Lard closed 2½¢ per lb. 100@ \$1.45@ \$1.45@ \$1.45.

Meat closed steady, at \$4.05 per lb. for boxed shoulders and 55¢ for short ribs. Whisky was steady, at \$1.05 per gallon. Flour was dull.

Wheat closed ½¢ lower, at \$1.07 cash or January

and \$1.05% for February. Corn closed ½¢ lower, and 10¢ for January and 12¢ for February.

Oats closed 10¢ lower, at 74¢c for January and 24¢ for February. Rye was easier, at 50¢.

Barley closed steady, at 57½¢ spot and 58¢ for February. Hogs were active and easier, closing 5 10¢ lower, at \$4.00@ \$4.25 for common to extra. Extra hams were steady, at 50¢@ 52¢.

Sheep were unchanged, at \$3.00@ \$3.00.

Sheep were unchanged, at \$3.00@ \$3.00.

The exports from the seaboard last week

included \$3,000 bbls flour, \$42,000 in wheat,

\$50,000 bbl corn, 3,000 bbls oats, 23,000 bbls rye,

\$5,000 bbl barley, 2,600 bbls pork, 8,600,000 lbs. lard, and 16,000 lbs. bacon.

Sheep were 10¢ higher, at 50¢@ 52¢.

Wheat closed steady, at 16¢ cars cash, 10 cars @ 13 cash barley.

Total, 277 cars, or 104,000 bushels.

A hundred dollars in gold would buy \$102,624 in greenbacks at the close. British consols were quoted at 94 11-16, and sterling consols at 86 25-35.

Greenbacks at the New York Stock Exchange yesterday closed at 97½.

Senator PATTERSON, of South Carolina, has

confided his intentions to a Tazewell inter-

viewer. He has no thought either of giving up

the ghost or his seat; he will neither die

nor resign if he can help it—which depends

somewhat upon Providence and WADE HAM-

PTON.

Wisconsin was yesterday equipped with

her new Governor, the inauguration of Gov.

SMITH having been accomplished with be-

coming pomp and circumstance. In Ohio

and Kentucky the Senatorial contests have

fairly begun with the assembling of the

Legislature.

BILLY MCGRAHAM's big suit against the

New Idria Mining Company, which in-

volves the title to quicksilver mining prop-

erty of vast value, and which has been

brought in the courts and in Congress for

about fifteen years, has at last been decided

against him in the United States Supreme

Court.

American canned beef is having an enor-

mous sale in Europe. The principal point

for the preparation of this article is Chicago,

one firm alone exporting over half a million

dollars' worth yearly to England. Their

success has induced rival firms in other

cities to go into the same branch of trade.

One of these, the St. Louis Beef Canning

Company, was very properly enjoined by

Judge BROWN last Saturday from infring-

ing the patents of the Wilson Packing

Company of this city. It is an exceedingly

important case.

No better statement than the following

would be made of the reasons for which

HAMILTON and his associates in the estab-

lishment of the Government made the silver

dollar the monetary standard of the United

States. We quote from a speech delivered

in the French Legislature by Dau in 1803,

when the question of the standards was b-

rought before that country. He said :

The money unit must be true money. This unit

must be established in the metal which fluctuates

most, which is silver. But it does not fol-

low from that the position of a more com-

pact and easier to manage.

The attack in force is to be made by the

Eastern Importing interest upon the system

of direct importation to Western cities under

the Immediate Transportation act. Under

the pretense of deep solicitude for the col-

lection of the customs revenue, but in point

of fact for the purpose of regaining the trade

they have lost in consequence of the facili-

ties extended to Western importers by the

law, they will endeavor to secure a com-

plete and existing inspection, will nec-

essitate the opening and inspection at the sea-

board of all packages destined for the Inter-

ior, and in this way it is hoped to so cripple

the movement, and be in readiness to show up

its true inwardness when the proper time

arrives.

There were audited at yesterday's meet-

ing of the County Board bills aggregating

\$25,000, covering recent expenditures in

connection with the County Agent's office,

the County Hospital, the Poor-House, and

the Insane Asylum; and in the face of this

enormous outlay for public charities there

was introduced and passed, by a vote of 11

to 8, a resolution which involves an almost

unlimited increase of the already immense

expenditure. It frees the County Agent

from all the restrictions hitherto imposed

upon the gratuitous distribution of supplies from his office, and directs him to throw open the door to all comers for the two months ending Feb. 28. Heretofore none but the indigent widows and orphans and the aged and infirm who were physically and mentally unable to work for a living were permitted to receive aid from the county; now it is ordered that supplies be issued to whomsoever shall apply,—to the able-bodied tramps and loafers, the idle and unemployed from any and every cause, those who are already in the city, and all who may be attracted hither from the surrounding cities and towns by the prospect of being supported in idleness for two months. Until the 1st of March Chicago is to be the paradise of the dead-beat and the hummer. Where the money is to come from with which to furnish this unparalleled free lunch, none of the eleven Commissioners who voted for the resolution seem to know; they only realize that there are votes in the future to be had in return for this bread cast upon the water. In the meantime, laziness and improvidence are at a premium, and frugal industry and independent manhood at a fearful discount.

It is reported from Washington, on how good authority we know not, that the President, backed by a portion of his Cabinet, intends to use his influence to have the Silver bill so modified in the Senate as to restrict the legal-tender quality of the silver dollar to that of the greenback, so that it will not be received for duties not paid.

It is true that the ordinary politician has very little regard for platforms. Mr. Cox and Mr. Blaine were candidates before that Convention, after this platform was adopted. Had either been nominated, he would have accepted the platform, and then dismissed it from his mind forever. Mr. Hayes, however, was not a machine politician. He accepted the platform because he approved it, and would not have accepted the nomination had he not intended to abide by and execute his pledges. The machine politicians, however, cared nothing for party pledges or party platforms, except as a means to insure success. Success is to be had by private capital, and stands ready to complete a through line on the thirty-second parallel with the Southern Pacific road, to be built for the benefit of the South and the North, and by the question of the latter's right to \$1,000,000 a year, and the Southern Pacific will be built at private expense.

DUNTY BOARD.

Brockway's Pay--Responsibility of Heads of Departments.

Men Out of Work to Be Paid by the County for Fifty Days.

Board held a regular weekly meeting this afternoon, President Senns presided, and the Commissioners present all the Commissioners.

Board was received from the Asst. Treasurer asking the Board to remit the balance of the amount of the Clerk in his office from \$23,000 "being on hand." It was remitted on Finance.

LEADER BROCKWAY.

Board was read from the County that he had made a demand for \$7,190.05, the amount in the vaults of his office.

Commissioner Finsinger, in which he was in the office, was remitted.

an agreed case was submitted to the court, where the latter's right to \$1,000 in the abstract work might be the communication further set Brockway had paid into the amount of \$6,199.00, but was determined to the balance until his rights were settled.

Finsinger said the Receiver in every sense of the word, report came in he was asked to meet it for a day. Now he had done nothing, and he has been allowed to make up an agreed case, subject of the Receiver's duties was that he referred it to his law office. It was thought he had any right to have turned over the case, and made use of it. Mr. Finsinger must be referred to the County Commissioners to take proper steps to a settlement, and, if he to call on the Grand Jury to

Brockway moved an amendment to be referred to the Board, was accepted, and the paper was read at the In-For-House at the close of the meeting.

It showed that the supply was short, and it was required by Public Charities as the committee of the Board. Recommended. Referred, BROWNING, MOWRY.

Commissioner Finsinger said the report was rejected, but a majority of the members of the Board did not receive the opinion of the court, and wouldn't get it until the next meeting.

As a result of the report of the Public Charities reported to the Board, it was voted to pay out \$1,000.00 in the amount of \$1,000.00.

Commissioner Finsinger recommended the amount to \$7,067.32. Con-

sequently, the amount of \$7,067.32.

Decrease of Bank and Legal-Tender Circulation—American Bullion for Eight Years.

The Produce Markets Less Active—Hogs and Provisions Steadier.

Breadstuffs Tending Downward—The Weather: Favorable to Increased Receipts.

FINANCIAL.

The changed weather has given a more confident feeling to business men and bankers as to the prospects of the future, but he has produced no actual change in the financial situation. Collections are as slow as ever, and the number of notes in circulation is not less than it was in no less than two weeks. If the weather continues cold and clear it will not be long before all this is changed, and every department of business will feel a new impulse.

Rate of discount was 7 per cent for choice short term or call loans, and \$10 per cent for the same but not for the same.

The currency movement is sluggish. The amounts going in or out are insignificant.

New York exchange was quoted par to 250 per \$1,000 premium.

The clearings were \$3,400,000.

THE DECREASE OF LEGAL-TENDER AND NATIONAL BANK NOTES.

The Comptroller of the Currency has prepared the following statement. It shows a decrease in the use of Jan. 14, 1875, of \$31,025,025 in the National Bank circulation, and of \$32,052,025 in the greenback circulation:

On Jan. 14, 1875, the decrease was \$340,494,182.

National—Bank notes issued \$3,400,000.
